

Worldwide Need for Love in Action

- 805 million people do not have enough to eat
- One in every nine people on our planet go to bed hungry each night
- Every 5.6 seconds someone dies from hunger
- Poor nutrition causes nearly half (45%) of deaths in children under five - 3.1 million children each year

Key Areas of Focus

Infant and Young Child Feeding Projects

Supporting local orphanages, hospitals, and ministries for street children where they receive the life-saving food they need, while ministering the love of Jesus.

Animals, Agriculture & Economics

Provide dairy animals, chickens and other livestock for subsistence farming. Develop agricultural programs designed to teach farming to communities providing food and potential revenue from crop sales.

School Feeding

Providing food produced and purchased within a country to the extent possible.

Water, Sanitation & Hygiene (WASH)

Establish freshwater wells and boreholes. In support of agricultural initiatives and prevent waterborne disease and promote properly built latrines.

Construction Projects

Projects provide shelter for homeless families, education opportunities to help break the cycle of poverty and facilities for physical and spiritual healing to build up the body of Christ.

Medical Missions

Common ailments often go undetected in many developing countries and quickly become a matter of life or death.

Why We Are Different

We address the root issues of poverty. Sometimes people get stuck. A community can't progress until its people understand what is holding them back. Everyone has God-given value and potential so we begin with changing how they see themselves and the world around them.

We see the big picture. We don't do just one thing. Ending poverty is complicated and it takes more than food or clean water for a community to thrive.

Our approach is to empower. We want to see individuals, families and communities become self-sustainable through improved methods of farming, animal husbandry and learning marketable trades resulting in consistent income and dramatically improved economic outlooks for their community.
